Logos & Identity Design

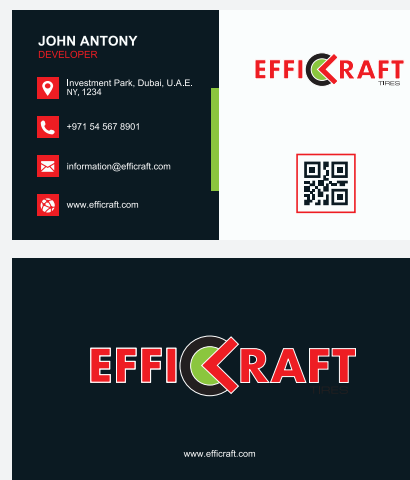

Business Card, Letterhead, Envelope

Many people believe a brand only consists of a few elements - some colours, some fonts, a logo, a slogan and maybe some music added in too. In reality, it is much more complicated than that. You might say that a brand is a 'corporate image'.

The fundamental idea and core concept behind having a 'corporate image' is that everything a company does, everything it owns and everything it produces should reflect the values and aims of the business as a whole.

Logo: Identifies a business in its simplest form via the use of a mark or icon. Stationery (Letterhead + business card + envelopes, etc.)

Menu

Designing & Printing

One of the most important parts of a restaurant business is its menu. A restaurant menu design is a reflection of the restaurant itself. A menu is what will lure new customers to try your restaurant. Careful considerations should be paid to the menu descriptions, layouts and colors. Your menu should also compliment your restaurant's theme i.e. if you have a casual diner your menu font shouldn't be fancy script.

For many restaurants in Dubai, Abu Dhabi, Sharjah and Ajman in the UAE, we've executed excellent restaurant menu designs. And we would be happy to build an innovative menu for you, focusing on the core values and distinctive characteristics of your brand as well.
